Courtney Langston
660.624.2691

CAP Senior Director:
Laure Bruce
636.357.3059

660-207-7440 (Fax)
cap@compasshn.org

The goal of the Crisis Access Point (CAP) is to provide a safe and less costly alternative to divert individuals arrested, away from jail and emergency rooms and into treatment services. These services would allow for further observations, connecting the individual to ongoing care, and avoiding inpatient admission.

Access To Care

The crisis centers will be a 24/7/365, no wrong door entry program that provides rapid access to triage, stabilization services, and linkage to appropriate community services for individuals experiencing a behavioral health crisis.

Our Team

Our staff will be a multi-disciplinary team that includes registered nurses, case workers, mental health technicians, licensed qualified mental health professionals and psychiatrists/physicians assistants.

Resources

The crisis center will work in collaboration with local social service providers to develop needed resources and enhance the existing system of care.

Who We Serve

Adults, 18 and over, who are underserved, underinsured and uninsured and dealing with a mental health or substance use crisis.

For information about the development of the Crisis Access Point (CAP), please call Jamie Bartin at 888-237-4567.
