Goal: Provide care in the least restrictive setting and work to prevent long periods of time away from normal support systems

Who we serve: Individuals 18 years and older who are experiencing a behavioral health, substance use, or situational crisis and needs a safe and calming place to go. There is no need for a referral and walk ins are welcomed

Behavioral health crises are self-defined and unique to everyone. What may seem minor to someone can be world changing for another.

What to expect: Coming to the BHCC involves an assessment from a nurse and a qualified mental health professional followed by short term and patient centered care focused on stabilization and providing community resources. These are provided as the client is willing and voluntary

If there are additional questions or concerns, please contact the crisis center at: 660-358-1585
