

Youth Behavioral Health Liaisons (YBHLs) are behavioral health professionals employed by Certified Community Behavioral Health Clinics (CCBHCs) across the state. They support youth experiencing behavioral health challenges by connecting them to vital services within their communities.

YBHLs are effective because they focus on building strong relationships with community partners, youth, and their families. This collaborative approach creates a network of behavioral and community support services, creating a safety net for youth and/or families.

Referral sources include, but are not limited to:

- ✓ Schools
- ✓ Law Enforcement
