Veterans Treatment Courts

Started in Buffalo NY in February 2008

Some Quick Facts:

- More than a half of the 2.6 million who deployed to Iraq and Afghanistan return with mental health conditions related to their service.
- 1 in 6 struggle with addiction
- 1 in 5 have PTSD
- 700,000 vets in the criminal justice system right now. Many were arrested for charges directly related to trauma, addiction, or mental illness.

If all this is left untreated these issues make it difficult to adjust to life after they return and can lead to unemployment, homelessness, and arrest.

Why A Specialized Court?

- VTC Courts are not your average drug or mental health court. Members of the team such as the judge, prosecutor, probation, treatment, and law enforcement must wear different hats.
- VTC's offer coordination with federal, state, and community agencies
- VTC's are specialized in dealing with PTSD, military trauma, and TBI
- Veterans are better served when separated because they share military culture and a common bond with each other.

COURT AND DIVERSION PROGRAMMING

- **Veterans Treatment Courts**
601 courts operating in 47 states and one territory
- **Accountability**
- **Treatment / therapy requirements**
- **Frequently seen by either P.O., Judge, Therapist**

Jail and Homelessness

- Most recent United States Justice Bureau of Justice Statistics (BJS) data, indicates approximately 9 - 10% of people incarcerated are veterans.
- Incarceration as an adult male is the single highest risk factor of ever being homeless (NSHAPC/Burt, 1996)
- Historically, reports of Vietnam and Post-Vietnam era veterans with histories of civilian and military trauma suggest an association between trauma and subsequent contact with the legal system.
- Justice For Vets most recent report indicates there are 181,500 incarcerated Veterans in the U.S. Berzofsky, M., Bronson, J., & Noonan, M. (2015). Veterans in Prison and Jail, 2011-12. US Department of Justice, Office of Justice Programs, Bureau of Justice Statistics. Available at: <http://www.bjs.gov/content/pub/pdf/vpj1112.pdf>.
- 460,000 Veterans who served in Iraq/Afghanistan are listed as suffering from PTSD and or depression₁
- 345,000 Veterans who served in Iraq/Afghanistan are listed as struggling with substance use disorder 1.Tanielan, T. & Jaycox, L. (2008). Veteran Justice Outreach Initiative

“The purpose of the VJO Initiative is to avoid unnecessary criminalization of mental illness and extended incarceration among Veterans by ensuring that eligible Veterans in contact with the criminal justice system have access to:

VHA mental health and substance abuse services when clinically indicated , and other VA services and benefits as appropriate.”

Department of Veteran Affairs, April 30, 2009, Under Secretary for Health’s Information Letter

Mission:

- To identify justice-involved Veterans and contact them through outreach, in order to facilitate access to VA services at the earliest possible point. Veterans Justice Programs accomplish this by building and maintaining partnerships between VA and key elements of the criminal justice system.

Vision:

- Every justice-involved Veteran will have access to the care, services and other benefits to help him or her maximize their potential for success and stability in the community, including by avoiding homelessness and ending their involvement in the justice system.

UNITED STATES DEPARTMENT OF VETERANS AFFAIRS

Limits on VA Services for Incarcerated Veterans

Can provide:

- Outreach, assessment, referral and linkage to services
- Treatment for justice-involved Veterans who are not incarcerated

Congressional mandate dictates:

Title 38 CFR 17.38 (C)(5) does not allow VHA to provide:

- Hospital and outpatient care for a Veteran who is
 - Either a patient or inmate in an institution of another government agency
 - If that agency has a duty to give that care or services

VA Eligibility

- ❖ Ask: *Have you ever served in the United States Armed Forces or Military?*
- ❖ Why not ask: *Are you a Veteran?*
- Many Veterans mistakenly think this applies only to Veterans who served in combat.

VA Deputy Undersecretary for Health for Operations and Management

May 27, 2009

“Law Enforcement Crisis Intervention Teams (CIT) are another promising avenue for connecting justice-involved Veterans with needed mental health and other services. In Memphis, Tennessee, and other communities using the Memphis Model, VA clinicians train law enforcement personnel on Veteran-specific issues, including PTSD and TBI, to inform encounters with Veterans in crisis.”

UNITED STATES
DEPARTMENT OF VETERANS AFFAIRS

CIT is a partnership

Community Providers

- community mental health, hospitals, substance abuse treatment (no clinical barrier to care)

Law Enforcement

UNITED STATES
DEPARTMENT OF VETERANS AFFAIRS

Law Enforcement Training

- Helping CIT, probation/parole, and other law enforcement officers understand unique veteran challenges and needs.
- Using that knowledge to intervene more safely and effectively with veterans in crisis.
- Improving outcomes for veterans and avoiding unnecessary criminalization of behavioral health disorders.

UNITED STATES
DEPARTMENT OF VETERANS AFFAIRS

Police Training continued

- VJOs may present segments of CIT basic training sessions, and/or...
- VJOs may organize advanced police trainings specifically on veterans' issues.
- Typical topics include PTSD, TBI, veteran-specific issues, and VA services.

UNITED STATES
DEPARTMENT OF VETERANS AFFAIRS

Outreach to Police-Involved Veterans

- Police and CBHLs reach out to VJOs to help individual veterans in crisis.
- Veterans or families may ask for help advocating or communicating with police.
- VJOs sit on CIT Coordinating Councils.
